spent some time on the Qs-- still rough but wanted to check with you all to see if these are going in the right direction.... some things in here that Ayn might want to firm up or amend.

Subject: My first crack at Qs and As for the Ph5 interim CS

Dayna, Rich and Pat and I met while you were out. We agreed that, given that USGS' draft report will be out for peer review beginning this week, it would help if we had a short interim CS that consists mainly of Q&As that might come to us if the USGS info gets out (even though it is supposed to be a confidential process). So here is a quick crack at some of the near term possible Qs. I think Pat and Rich were going to take these and try and generate a short draft CS.
